Swiss – Belgium/WB Innovation Matchmaking Event, 27-28 April 2015

Coating and Additive Manufacturing

The joint Swiss-Belgium/WB Innovation Matchmaking Event on Coating and Additive Manufacturing is organized to foster cooperation between Swiss and Belgian/WB enterprises, user organizations and research institutes. It offers companies and research institutes the possibility to meet potential partners for (R&D) cooperation.

The event is linked to the Eurostars/Eureka programs. Goal of projects within the framework of Eureka/Eurostars (all topics) is to develop innovative close to the market solutions (products and services).

Publication date and deadlines of the next calls for proposals:

- Eurostars¹: next planned call date is September 17, 2015
- Eureka²: project submission for Eureka possible year-round
- M-Era.Net³: pre-proposals deadline is June 9, 2015
